STEP 1

Go to React App

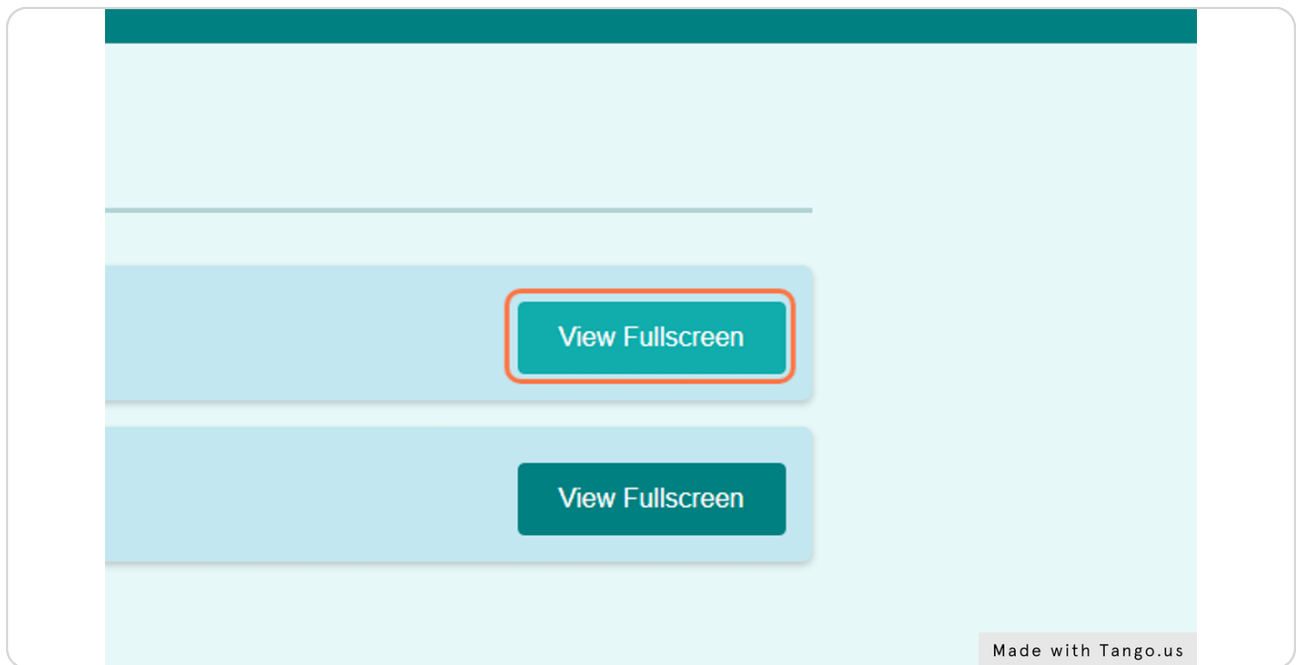

STEP 2

Click on Sort Ascending

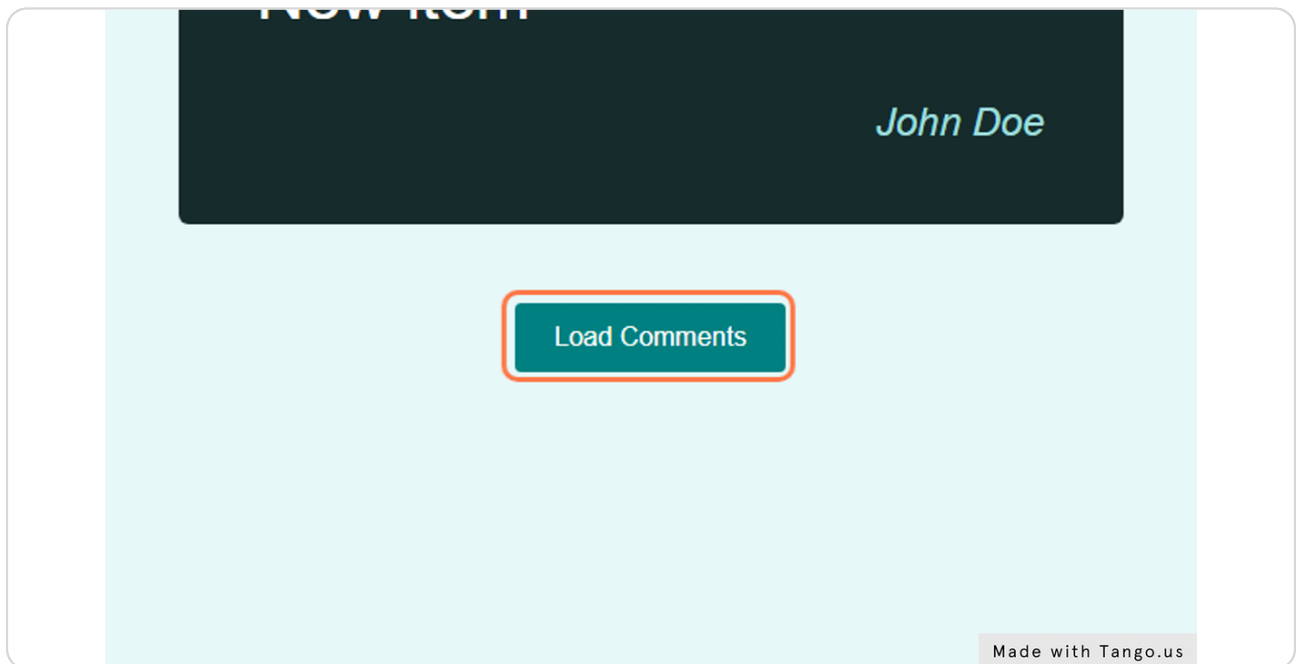

STEP 3

Click on View Fullscreen

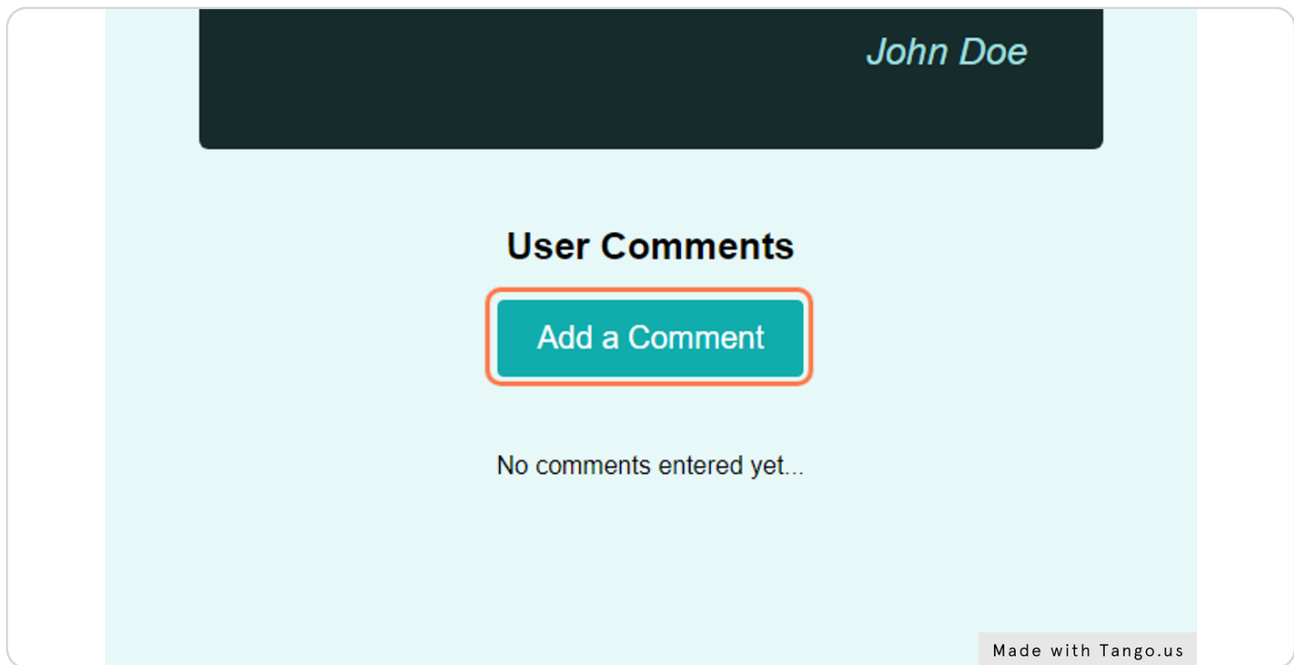

STEP 4

Click on Load Comments

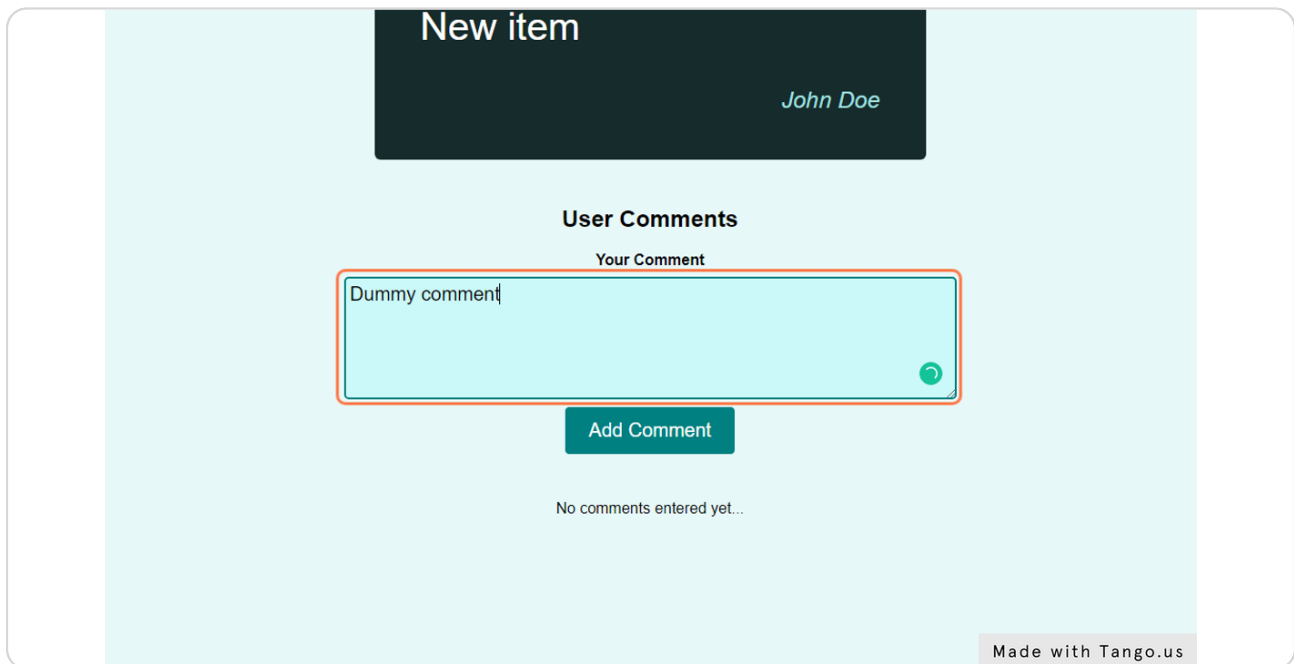

STEP 5

Click on Add a Comment

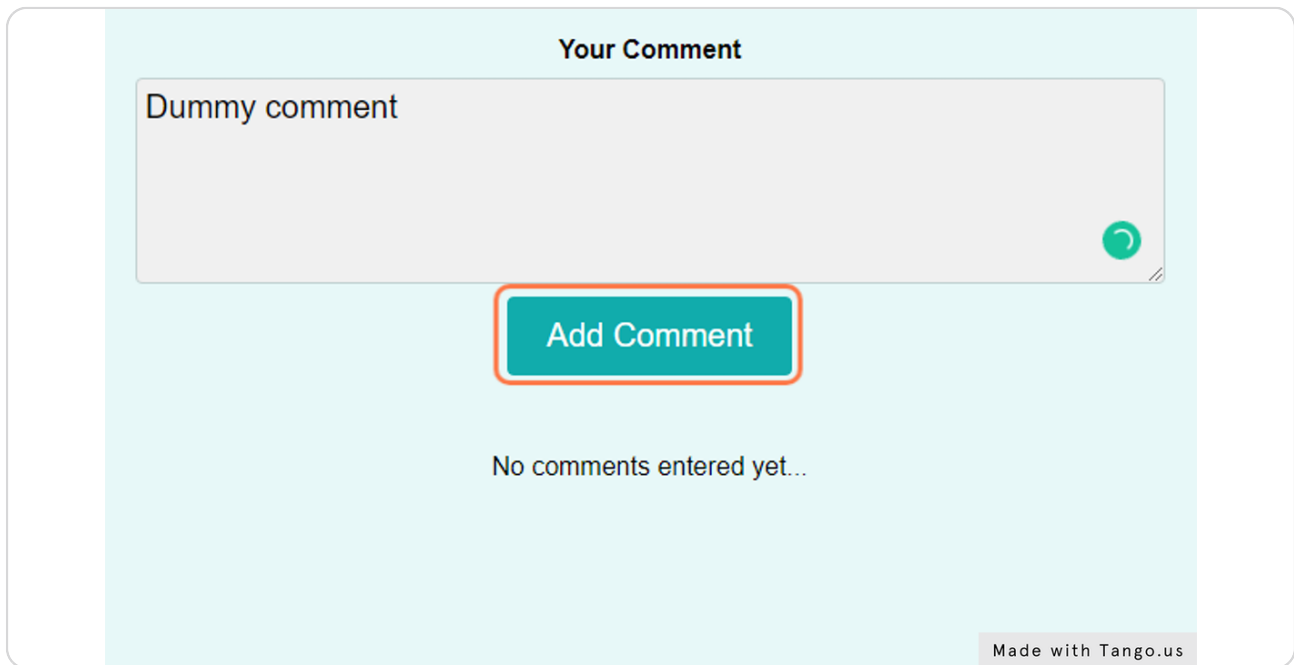

STEP 6

Type "Dummy comment"

STEP 7

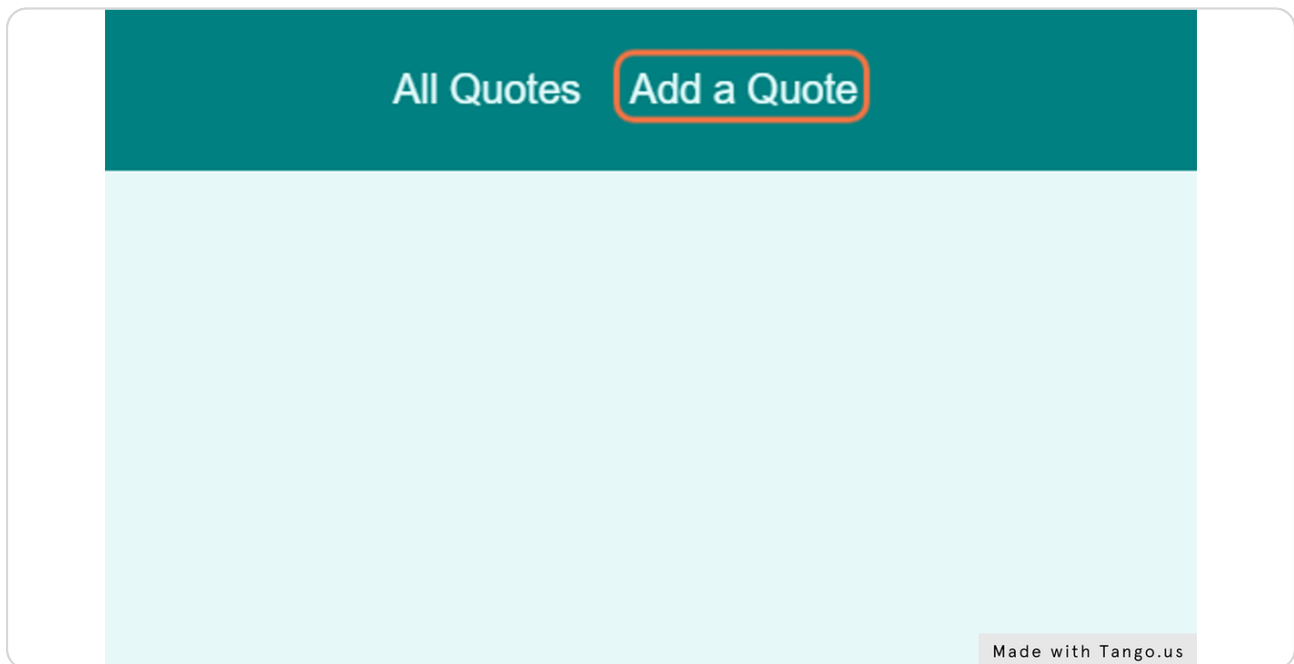

Click on Add Comment

The screenshot shows a light blue rectangular area representing a comment section. At the top, the text "Your Comment" is centered. Below it is a large, light gray rectangular text input field containing the placeholder text "Dummy comment". In the bottom right corner of this input field is a small green circular icon with a white arrow. Centered below the input field is a teal rectangular button with rounded corners and a thin orange border, containing the text "Add Comment". Below the button, the text "No comments entered yet..." is centered. In the bottom right corner of the entire light blue area, there is a small gray box containing the text "Made with Tango.us".

STEP 8

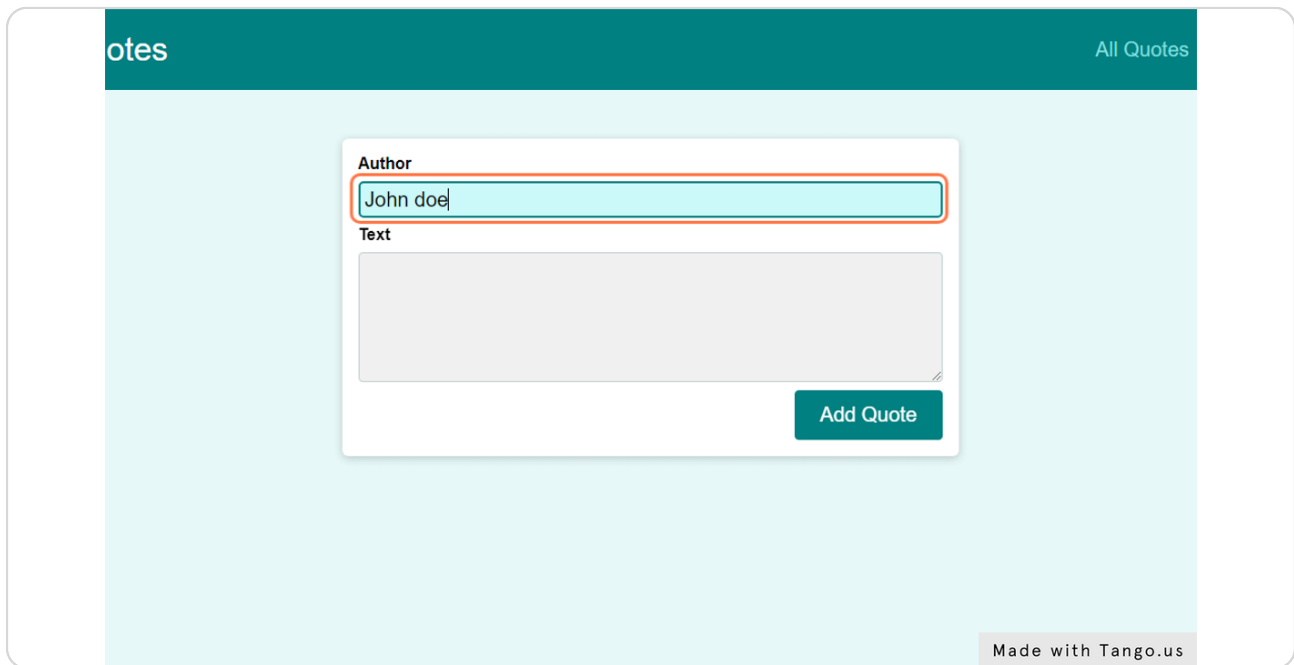

Click on Add a Quote

The screenshot shows a light blue rectangular area representing a quote section. At the top, there is a dark teal horizontal header bar. Inside this bar, on the left, is the text "All Quotes", and on the right is a teal button with rounded corners and a thin orange border, containing the text "Add a Quote". Below the header bar is a large, empty light blue rectangular area. In the bottom right corner of the entire light blue area, there is a small gray box containing the text "Made with Tango.us".

STEP 9

Type "John doe"

otes All Quotes

Author

John doe

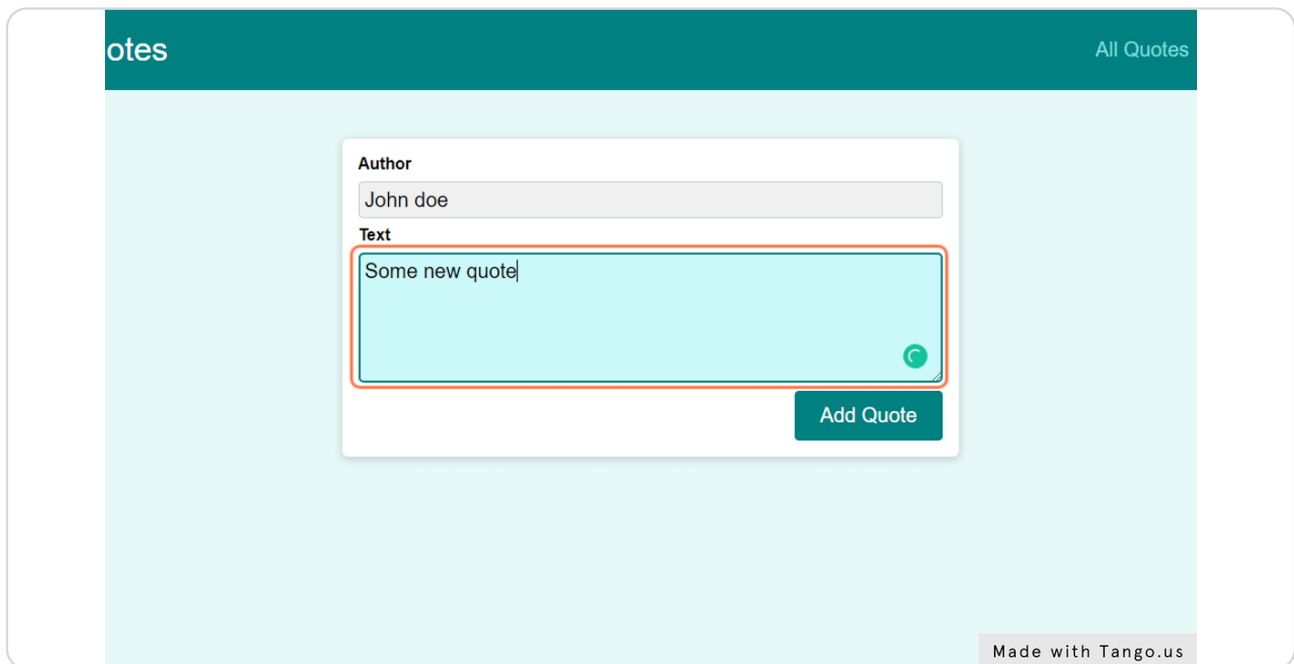

Text

Add Quote

Made with Tango.us

STEP 10

Type "Some new quote"

otes All Quotes

Author

John doe

Text

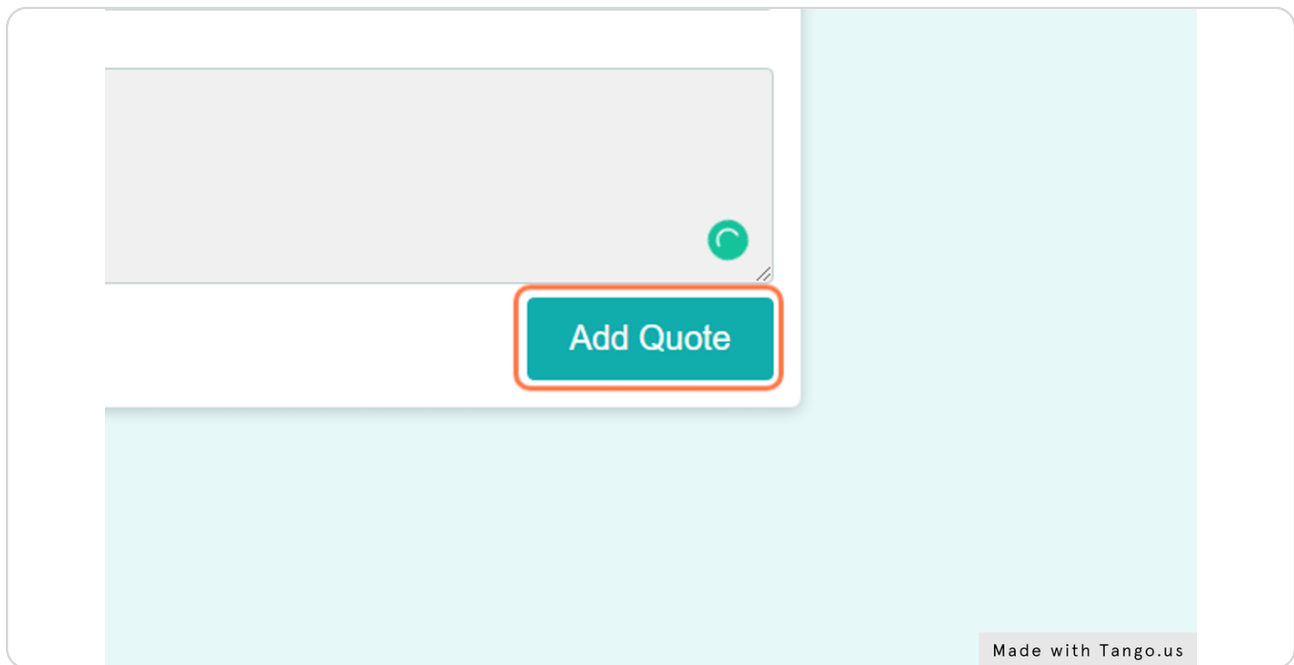

Some new quote

Add Quote

Made with Tango.us

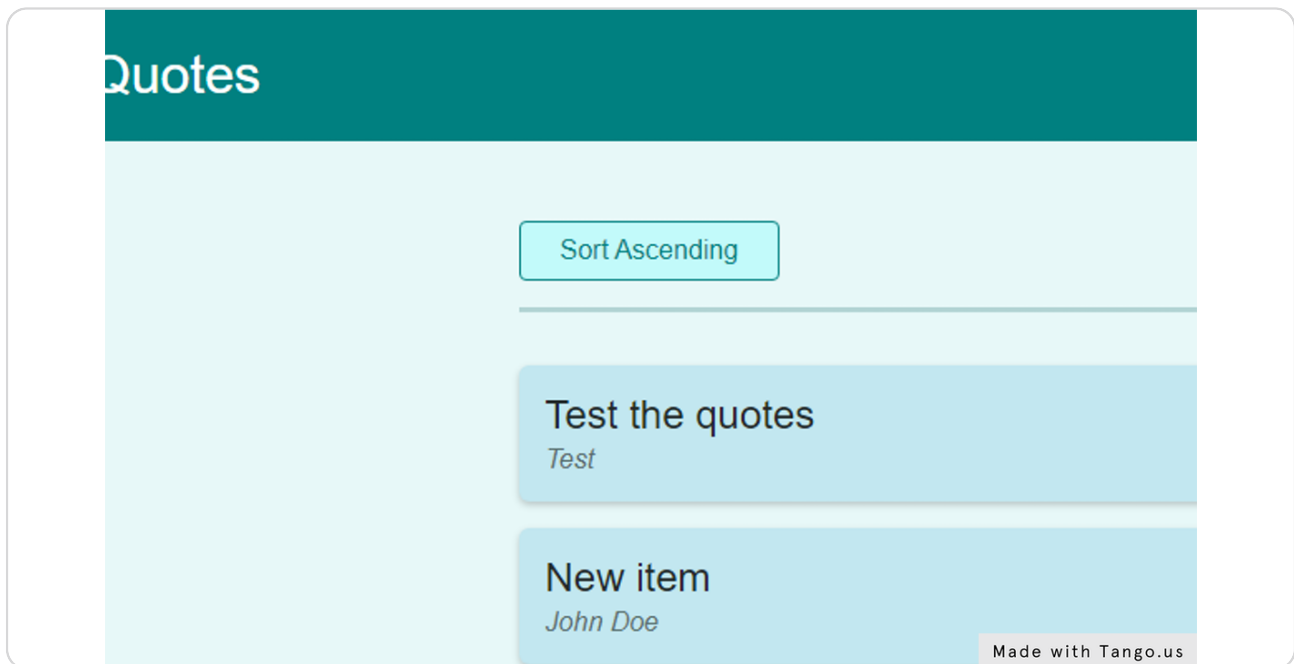

STEP 11
